

CONTINUOUS TRAINING

Note on Delivery

Please note: For the time being, these continuous training courses are held on our campuses in France and conducted entirely in the French language. We are actively working on developing our international offerings.

EILOA offers a wide range of Continuous Training programs designed to meet the specialized needs of companies, national and international museums, private collectors, art galleries, and auction houses.

Our training is led by over 50 expert instructors in their respective fields.

The offer is structured around 5 main themes to ensure comprehensive and cutting-edge expertise in the field of fine art logistics:

- 1. Act for sustainable and innovative practices in the transport and logistics of artworks:** Focusing on ecological transitions and future-proofing the industry.
- 1. Ensure the security of artwork transport:** Covering essential measures to guarantee the safety and integrity of precious and fragile objects during their movement.
- 1. Handle, package, and protect all types of artworks:** Providing the core technical skills necessary for custom crating, manipulation, and preservation.
- 1. Optimize professional practice:** Aimed at improving operational efficiency and professional standards within logistics teams.
- 1. Organize the movement of artworks and manage complex logistics projects:**
Developing the project management and coordination skills essential for national and international exhibitions.
